***Allowable Subject Matter***

2. The following is an examiner's statement of reasons for allowance:

Peterson discloses an apparatus that controls the bit rate for partitions or stripes of video pictures (Peterson: column 1, lines 7-10). This apparatus comprises "maintaining a budget of a number of processing cycles that are available at a processor to process the data" (Peterson: figure 3, column 3, lines 40-42, wherein the budget is the target number of bits, the processing cycles is a function of the bits, i.e., the higher the number of bits, the more processing cycles that are required, the processor is the stripe encoder), "maintaining an estimate of the number of processing cycles required by the processor to process the video data" (Peterson: column 4, lines 1-7, wherein the estimate is the actual number), "providing the video data to the processor" (Peterson: figure 2, wherein the global rate controller supplies the video, the processor is the encoder), "wherein the processor operates in a plurality of modes and selects one of the modes for processing each frame according to a relationship between the number of budgeted cycles and the estimated number of cycles" (Peterson: column 5, lines 24-67, column 6, lines 1-9, wherein the mode is the process of allocating extra bits to encoders that need them and taking extra bits away from

encoders that don't need them. This is done by calculating differences between the target, or budgeted, and estimated, or actual, number of bits as illustrated in columns 5-10 for each frame where the frames are the I, P, and B frames).

However, this apparatus lacks the processor being a transcoding processor which operates in a plurality of transcoding modes. This apparatus further lacks dropping higher-frequency coefficients when selecting a requantization mode. A further search was conducted which failed to yield any prior art. Therefore, the prior art fails to teach or render obvious these limitations taken within the others in the claim

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
